

# Analyst - *Investment Banking* *Department in Zurich*

The **Investment Bank** delivers comprehensive advice, products and execution to corporate, institutional, intermediary and alternative asset management clients across the world's capital markets.

## **Description:**

UBS is one of the world's leading firms in the investment banking and securities business, providing a full spectrum of services to corporate and institutional clients, governments and financial intermediaries.

We invite highly motivated individuals to apply for an Analyst position within our global Investment Banking Department. Our department advises top corporations and governments on strategic and financing alternatives. These include Mergers and Acquisitions, debt and equity capital raisings, leveraged buy-outs and corporate restructurings.

## **Main activities:**

- Work on various exciting and challenging projects in a multicultural team
- Work with senior bankers to help originate and execute key transactions
- Bringing clients and investors together to fulfil their mutual needs

As an Analyst, you will be part of a multicultural team and work on various exciting and challenging projects. You will get the chance to work on transactions with international teams that draw together the specialised skills and expertise of country, sector and product areas to reflect the individual needs of each client. The integration of skills and expertise across countries, sectors and products enables us to provide our clients with unparalleled investment banking services.

## **Start date: July 2012 (or earlier as agreed)**

The UBS Graduate Program is a learning journey. All graduates from across UBS's businesses and throughout the firm have a common mission to build business specific proficiencies and firm-wide knowledge. UBS graduates enter intensive, industry-leading training programs at the start of their careers with the firm. These programs provide various cross-divisional and specialist perspectives. They focus on specific business skills as well as personal development. Graduates will also learn about our organization, core values and the professional standards we aspire to. There are opportunities for graduates to grow both professionally and personally and to create networks to bring our strategy to life. This program positions graduates for a successful career at UBS and prepares them for many more learning opportunities ahead.

Specifically within IBD, you will experience an initial 5 week program of technical training which will prepare you for the role of an IBD Analyst. This will focus on the core skills an Analyst requires around accounting, valuation and modelling. Your training will continue throughout your years as an Analyst through participation in targeted training as part of the IBD Learning Pathway.

## **Requirements:**

- Completed university degree (BSc or MSc) ideally in Banking and Finance/Business Administration/Economics/Technical Studies with a **very strong academic record**
- Strong analytical and quantitative skills
- High degree of professionalism as well as strong drive and commitment
- Excellent communication skills and team player
- Excellent oral and written command in **English and German is a must**
- Previous work experience from internships required, experience in Investment Banking, Finance and/or Accounting is favourable
- Solid PC knowledge (MS Excel, MS Word and MS PowerPoint)

Please note you may only apply for ONE position in ONE location for the 2012 IBD Graduate Programs. Multiple applications will not be considered.

We look forward to receiving your application via our job platform [www.ubs.com/graduates](http://www.ubs.com/graduates),
