

Ein Basler Unternehmen bietet **2 Praktikantenstellen** mit unterschiedlichen Profilen an. **Sollten Sie Interesse an einer dieser Stellen haben, so melden Sie sich bitte mit Ihren Bewerbungsunterlagen bei Prof. Sabine Böckem (e-mail: sabine.boeckem@unibas.ch).** Die Tätigkeiten bzw. gesuchten Profile sehen wie folgt aus:

KANDIDAT/IN 1: Ein Bachelor-Studierender, der das Unternehmen bei eher administrativen Themen unterstützt und erste Einblicke in die Unternehmenswelt bekommen möchte.

TASKS AND RESPONSIBILITIES

Support to modernize I&D Controlling working files:

- Check existing Excel working files for errors and inconsistencies
- Improve working files
- Increase automatization
- Interlink working files where possible
- Link working files to Bayer financial systems
- Prepare working files for possible future changes
- Create documentation for use and change of working files

Qualifications

- Profound of MS Excel and (preferably) Powerpoint
- Ability to quickly understand new systems
- Ability to structure complex data
- Work independently
- Fluent in English

KANDIDAT/IN 2: Ein fortgeschrittener Bachelor- oder Master-Student, der im Unternehmen komplexere Prozesse begleiten kann. Es besteht eine Chance auf eine spätere Festanstellung.

TASKS AND RESPONSIBILITIES

- Supporting monthly Reporting of Consumer Health Product Supply by preparing and analyzing Key Performance Indicators (KPI) overviews for the Senior management. Supporting analysis of operational performance KPIs such as FTE, Operational expenses and production volumes.
- Support in monthly COGS Closing activities, checking actual standard product costs versus planned cost, highlighting drivers of deviation
- Support for all Planning events such as Budgeting and Forecast events throughout the year by maintaining and improving data base of global production site network
- Regular reviews of product standard cost development during our Budget processes, comparing Budget costs versus prior year costing, pointing out drivers of deviation.
- Supporting preparation of senior management presentations during planning events.
- Supporting the strategic five year planning process. This includes developing a model in projection of Costs of Goods Sold based on Sales volumes and cost changes across individual data points.

Qualifications

- Strong English skills.
- Strong know how of Excel and Powerpoint.
- Willingness to interact in a global organization and team.
- Work with us ideally for more than a year
